

GOOGLE DATA ANALYTICS CAPSTONE PROJECT

Cyclistic Bike Share Analysis

Prepared by **Abhirami Ananthakumar**

TOOLS

Google Sheets • R • Tableau • Google Docs • Google Slides • GitHub

2026

Agenda

- 01 Business Problem
- 02 Business Objective
- 03 Business Task
- 04 Dataset
- 05 Tools Used
- 06 Methodology
- 07 Data Cleaning

- 08 Dashboard
- 09 Key Findings
- 10 Business Recommendations
- 11 Expected Business Impact
- 12 Skills Demonstrated
- 13 Conclusion

Business Problem

Annual Members

Casual Riders

- Cyclistic is a bike-share company serving riders through two membership options: annual members and casual riders.
- Casual riders use the service frequently but are less likely to purchase annual memberships.
- Increasing annual memberships is important because they provide more predictable, long-term revenue.

Business Objective

Analyze 12 months of Cyclistic ride data to identify behavioral differences between annual members and casual riders.

Provide data-driven recommendations to increase annual memberships.

Business Task

Provide actionable insights that help Cyclistic's marketing team convert more casual riders into annual members.

Dataset

SOURCE

**Divvy Trip Data
(Cyclistic)**

PERIOD

**Jul 2025 – Jun 2026
(12 months)**

TOTAL RECORDS

**5.93 Million
Rides**

FORMAT

**Monthly CSV
Files**

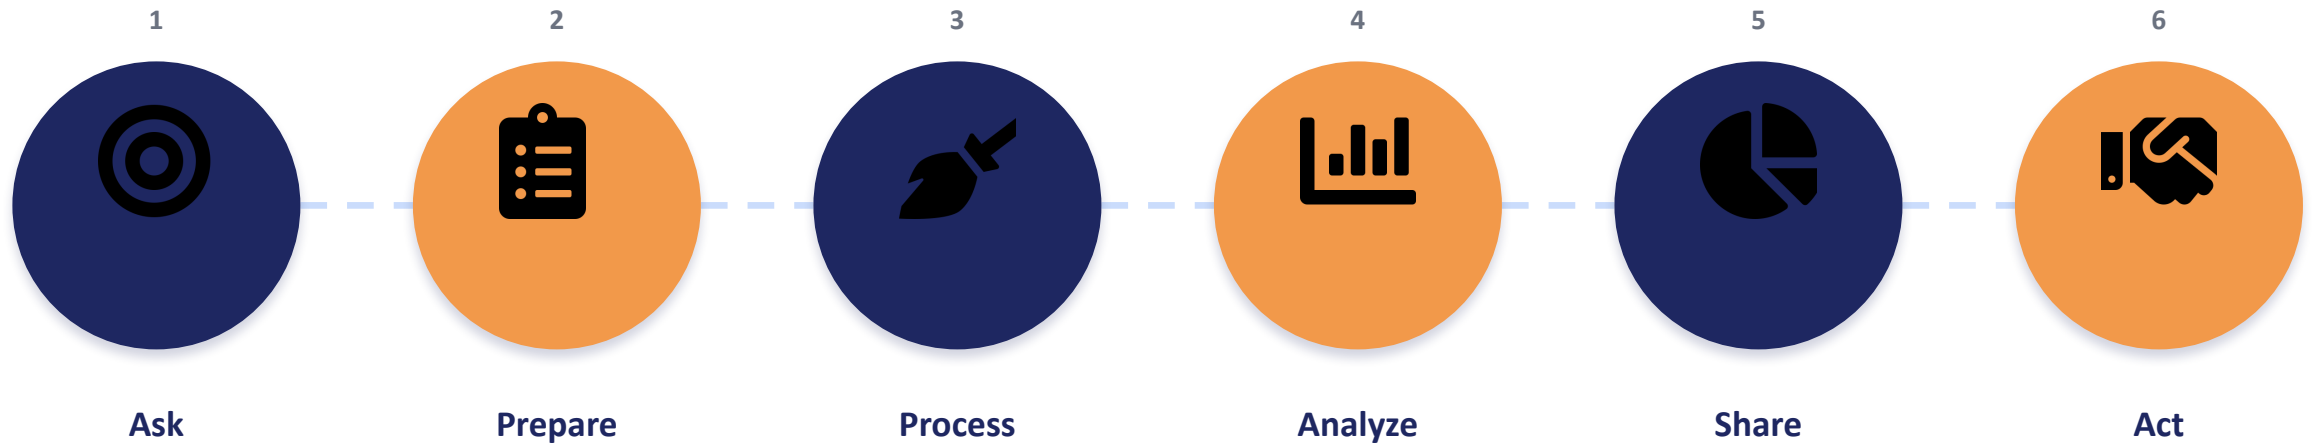

Data cleaned and combined using R

Tools Used

TOOLS	PURPOSE
Google Sheets	Initial data exploration
R	Data cleaning & preprocessing
Tableau	Dashboard creation
Google Docs	Project Documentation
Google Slides	Presentation
GitHub	Portfolio & version control

Methodology

The Google Data Analytics six-phase framework

Data Cleaning

- ✓ Imported 12 monthly datasets
- ✓ Combined datasets into one file
- ✓ Removed duplicates
- ✓ Removed missing values
- ✓ Converted date and time columns

NEW VARIABLES CREATED

-  Ride Length
-  Day of Week
-  Month
-  Hour

Dashboard Overview

Customer Behavior Dashboard

Key Findings

Casual riders take longer rides.

Members ride more frequently.

Casual rides increase during weekends.

Members ride consistently throughout the week.

Summer records the highest number of rides.

Peak riding hour is 5:00 PM.

Electric bikes were popular among both annual members and casual riders.

Business Recommendations
